EDUCATION

Bachelor of Engineering, Data Science

*Lords Institute of Engineering and
Technology – Hyderabad.*

3rd Year (Expected Graduation: 2026)

Pre University, Intermediate,

St Mary's Junior College - Hyderabad
GPA: 92%

Secondary Education, SSC,

St Joseph's Public School - Hyderabad
GPA: 8.2

SKILLS

Python Programming

SQL

Power BI

AI Agents

Data Structures

Time Management

Analytical Problem-Solving

Team work

PROFILE

Detail-oriented and proactive Data Analytics Apprentice with a strong foundation in data science, machine learning, and video analysis. Skilled in observational assessment, critical thinking, and deriving insights from complex data. Eager to contribute to computer vision annotation projects and support AI innovation through accurate, consistent annotations

EXPERIENCE

Artificial Intelligence Intern, September, 2024 – October, 2024

Manac-Infotech – Hyderabad, India

- Acquired expertise in understanding deep knowledge and techniques of A.I, Data Science and Machine learning.
- Assisted in developing an Encryption algorithm which secures from preventing loss of data.

Data Science Intern, 03/2023 – 04/2024

Yhills – Hyderabad, India

- Analyzed and created machine learning models to perform **customer segmentation** through clustering techniques, helping refine marketing strategies and identify key demographics.
- Additionally, developed a **stock price prediction system** using time series analysis, enabling accurate forecasting of market trends.
- Created and analyzed dashboards and performed SQL queries to draw inferences and critical information.
- Performed exploratory data analysis, DAX on large datasets to identify patterns and trends.

CERTIFICATIONS

- **Data Science Beginner** – *Yhills*
- **Power BI for Beginners** – *Simplilearn*
- **Data Analysis Workshop Certification** —*jobAaj Learnings*
